**RELIEVED CHINAMAN HAS

**INFORMATION FROM PHILADEL-
PHIA LEADS TO THIS NEW
CONVICTION.**

By United Press.
New York, July 6. The local po-
lice have sent an alarm to several
cities along the Mediterranean coast,
and to points throughout the Suez
canal, and Indian ocean, to hold up
the German steamship Helene Rich-
mers, and make a search for Leon
Ling.

The vessel sailed from Philadel-
phia on June 12, and the police be-
lieve that they have information that
Leon was aboard. They say the
vessel is bound to the Orient, and
that Leon is a passenger for Itesaki,
Japan.

Information from Philadelphia is
to the effect that a Chinese who
spoke good English, and professed to
be a good cook, secured employment
just before the sailing of the vessel.
The last heard from the ship was at
Tarifa, a seaport in Spain, south-
west of Gibraltar, on June 26.

ASSAILANT

**OF A WHITE GIRL WAS FOUGHT
OFF BY DESPERATE MISS.**

**POSSERS ARE SEARCHING FOR
NEGRO WITH AN INVITATION
TO A NECKTIE PARTY.**

Special to the Daily News.
Natchez, Miss., July 6.—An un-
known negro yesterday attempted
to assault Pearl Dorsey, a sixteen-
year old white girl, employed in the
Natchez Cotton Mills, in a bayou in-
side the city limits.

The girl fought her assailant and
beat him off. She was blackberrying
with three companions in the bayou
by the Mississippi Central Railroad
trestle, about a quarter of a mile
from the depot. When the negro ap-
proached the party all of the girls
took flight, but the negro caught
Pearl. He threw her down and
choked her, attempting to drag her
into the bushes.

The girl is well developed for her
years, and fought with all her
strength. The negro became fright-
ened at her cries and the knowledge
that her companions would give the
alarm, and she broke away and ef-
fected her escape. Sheriff Clarke put
bloodhounds on the track of the ne-
gro, and crowds of angry men took
part in the search.

Two negroes were arrested and
taken before the girl, but she said
they were the wrong men. The sher-
iff used his automobile in taking the
negroes to the girl's house, and said
that if either negro had been identi-
fied he would rush him to Brook Ha-
ven for safekeeping.

Posses are still engaged in the
search, and if the negro is caught
by any one of them a lynching will
take place.

NEW COLOR

**NOW PREVAILS ON THE U. S. EX-
PRESS WAGONS.**

The old conventional blazing red
of the United States Express com-
pany has been supplanted by a new
color, and has been sanctioned by the
main offices of the company. It is
steel gray with dark lettering and
Lima falls in line as one of the
first cities in the country to place
a wagon on the streets with the new
coloring. Others will be forthcom-
ing shortly. The color, red, has
been used ever since the company
has been in existence. There is no
apparent reason for the change.

Max Falk, the genial manager of
the Ellerman stores, is back from
Cedar Point, where he spent the
Fourth, heading a big delegation of
Limaites who dipped into the waters
of Lake Erie for pasture.

like an American and speaks good
English.

STRIKERS

**AMONG JAPANESE PLANTATION
LABORERS OF HAWAII.**

**MADE A PRISONER OF ONE OF
THEIR COUNTRYMEN AND PO-
LICE WERE CALLED.**

Special to the Daily News.

Honolulu, July 6. — Considerable
excitement was created here by the
arrest of two more of the leaders of
the Japanese plantation laborers,
who are on strike, for the alleged
false imprisonment of T. Sunoda, a
Japanese employed on the Waiwahu
plantation on a profit-sharing basis.
Following the arrests an investi-
gation was set in motion, which dis-
closed the fact that 2,500 Japanese
still on strike have picketed the por-
tion of the city about their quarters
and prevent any person not connect-
ed or in sympathy with the move-
ment from entering the camp of the
strikers.

The charge on which the arrests
were made was that strike breakers
had been kidnapped. Sunoda was
seized in the vicinity of the strikers'
camp and alleges that his captors
took him to a room in a Japanese
hotel, where he was kept by force
while his case was put on trial before
certain officers of the Waiwahu
branch of the Japanese Higher Wage
Association.

At the time of his capture Sunoda
declared that he was seeking to se-
cure services of several Japanese
laborers to help him in carrying out
the contract he has on a section of
the Waiwahu plantation.

He told the police that he believed
his life would have been in danger
if the police had not interrupted the
trial of his case which his fellow
countrymen were conducting.

The attitude taken by the Japa-
nese Consul and Admiral Hight, of
the Japanese training squadron now
in the harbor, in regard to this new
development, is believed here to
eliminate any possibility of interna-
tional complications.

**WALTER MACKIN SUFFERS A
PAINFUL INJURY WHILE AT
KALIDA WITH PARENTS.**

Fate does not seem to come singly
to Walter Mackin, aged 11, who re-
sides with his parents at 112 1/2 east
North street. The lad recently broke
his leg in falling over an embank-
ment into a ditch. The wound slow-
ly healed and was exceedingly pain-
ful.

Monday, Walter accompanied his
parents to Kalida, where they held
a family picnic. While there the en-
tire family engaged in a game of
baseball, just for "the fun of it."
Walter in sliding for third base, al-
lowed his ankle to turn, and as a re-
sult his leg snapped in the same
place that the previous break occur-
red.

The lad was brought back to the
city, the Whitley ambulance meet-
ing the train and removing the pa-
tient to the home of his parents on
east North street.

Concrete safes, moulded in a single
piece, with steel doors, are a novelty.
They are said to be both damp and
fire proof.

**PURPOSES WILL ALSO NOT BE

ERNMENT DUTY.**

By United Press.

Washington, July 6.—The Senate
today adopted an amendment which
in effect will relieve many corpora-
tions of the kind noted. The amend-
ment carried after considerable dis-
cussion from many angles.

All fraternal organizations, build-
ing and loan associations operated
exclusively for the benefit of mutual
members, labor organizations, and
other corporations which live for
the purpose exclusively of religious,
charitable or educational benefits,
will be exempt from taxation as pro-
vided recently in the corporation tax
proviso of the Payne-Aldrich bill.

The supreme court has heard the
call of the wild. Now that the term
has ended the honorable, chief jus-
tice and the associate justices, as the
court clerk says are hurrying to en-
joy their summer vacations far from
the maddening crowds of briefs and
barristers, motions, mandamuses,
writs of error and all such legal wor-
ries. Justice Peckham is already at
his country place in Albany county,
New York. Chief Justice Fuller
leaves this week and will probably
make his annual visit to Chicago,
going thence to Sorrento, Maine,
where he has a summer residence.
Justice Harlan will go to Murray
Bay, Canada, the latter part of the
week, and Justice White has started
for New Orleans. Justice Holmes
will soon sail for Europe and Justice
Day has gone to his home at Canton.
O. Justice Moody is fighting his
rheumatism at Hot Springs. The
plans of Justice McKenna and Bro-
wer have not been announced, but
they will probably leave the capital
early this week.

INJURED

**BY BEING ROLLED BETWEEN
CARS ON SOUTH MAIN ST.**

**GLEN REED, OF NORTH JACK-
SON STREET, SEVERELY
HURT IN AN ACCIDENT
MONDAY NIGHT.**

Monday night about 11 o'clock as
the city cars were bringing hundreds
of people back to the city from the
Hoyer park, where they had witness-
ed the principal features of the local
Independence Day celebration, Glen
Reed, a seventeen year old lad, who
resides at 719 north Jackson street,
was quite severely injured by being
caught between two cars on south
Main street, near Kibby.

Reed was riding on the footboard
on the left side of a north bound
open car which was well crowded,
and did not notice the approach of
a south bound car on the other track.
Fortunately both cars were moving
slowly as they passed each other or
the result might have been much
more serious. As it was, young Reed
was knocked off of the foot board of
the north bound car and fell between
the two foot boards for some distance
before the motormen brought both
cars to a stop. The youth's head,
body and limbs were severely bruised
and he was so badly stunned that for
some time it was feared that he was
seriously injured. He was taken to
the home of Dr. M. S. Rowser, but
on the arrival there he insisted that
he did not need the attention of a
physician and he again boarded the
car and was taken to the Public
Square and from there was sent to
his home. His trousers were almost
torn off of him during the short pe-
riod of his perilous rolling between
the two cars.

POLICEMAN FATALY SHOT.

shot last night.

FAINTED

**AS TRAIN APPROACHED AND
SUICIDE THEORY HELD.**

**CHICK CONNORS, OF ADA, FELL
BENEATH THE WHEELS
OF PENNSY TRAIN.**

"Chick" Connors, residing in Ada,
either fainted or made a half-hearted
attempt at suicide at the Jackson
street crossing of the Pennsylvania
railway, Tuesday afternoon, just as
the Manhattan Limited, due here at
1:37 o'clock, was passing, and he
fell partly across the rails.

The Whitley ambulance was ha-
stily summoned and rushed the victim
to the city hospital, where attending
physicians found the amputation of
one of the lower limbs beneath the
knee, was an immediate necessity.
Connors is thirty years of age and
has a wife and two children residing
at Ada, who have been notified. An-
other theory was that the man at-
tempted to catch the train to ride
back to Ada.

His condition is reported serious
following the operation, and death
may result.

SHEET PLANTS TO RESCUE.

Elwood, Ind., July 6.—District
Manager Tom O'Brien of the Amer-
ican Sheet and Tin Plate company,
stated today that four mills shut
down because of the strike, would
resume operations in this city to-
morrow morning. Fifty men still re-
main at the plant and this number,
he said, is sufficient to operate the
four mills.

AERONAUT

**HEARD THE REPORT OF SHOTS
FIRED BY SOME HOODLUM**

**AND BELIEVING THEM TO BE
THE SIGNAL AGREED UPON,
CUT LOOSE AND WAS
KILLED.**

Special to the Daily News.

Portland, Maine, July 6.—Before
16,000 persons, who had assembled
on the eastern promenade of the city,
Monday afternoon, James Corcoran,
aged 28 years, of Lowell, Mass., a
professional aeronaut, fell 300 feet
to the ground and was so badly in-
jured that he died fifteen minutes
later on the way to a hospital.

The accident was due to a confu-
sion of signals. Before Corcoran made
his ascent it was agreed that
when he was 1,000 feet high a shot
should be fired so that he could free
his parachute and make the descent;
also, that a series of shots would
mean that there was trouble with his
balloon.

Some irresponsible person fired a
series of shots when Corcoran was
but 300 feet up. Apparently think-
ing that something was wrong with
the big gas bag above, he made haste
to free the parachute. The drop was
too short.

The big parachute did not have
time to spread, and Corcoran came
crashing to the ground, while women
fainted and men turned sick.

The aeronaut's skull was fractured
and both legs were broken. Cor-
coran leaves a widow and one child.

EMPLOYES

**PROMPTLY PAID AND STEEL
TRUST IS THROUGH.**

**CONSIDERED THAT THE WORK-
ERS HAVE MADE IRREP-
ARABLE BREAK.**

By United Press.

Pittsburg, July 6.—That the United
States Steel Trust considers that all
ties have been severed between itself
and its employees who struck as a re-
sult of the open shop order in the
plants of the American Sheet Tin
company, was shown today by the
prompt payment of all wages due the
strikers, although undue till July 17,
as the company has always contended
that it takes two weeks to make up
the pay rolls. By the voluntary pay-
ment, five days after the mill work-
ers struck, it is taken to mean that
the company considers the break irrep-
arable.

BATTLE

**BETWEEN RIVAL "TONGS" OF
CHINESE INHABITANTS.**

**OVER TROUBLES WHICH ORIGI-
NATED FROM THE MURDER
OF ELSIE SIGEL WERE
HEADED OFF.**

Special to the Daily News.

New York, July 6.—Acting on in-
formation received from the Chinese
minister at Washington today that
trouble was expected between the rival
Chinese societies, the Hip Sing
Tong and the On Leong Tong, Police
Commissioner Baker dispatched
thirty policemen and thirty de-
tectives to Chinatown. The police in-
tended to deal summarily with any
uprising that might occur.

According to the police, the recent
conviction and passing of the sen-
tence of death on five Chinamen in
Boston, all members of the Hip Sing
Tongs, and the vigilance of the local
detectives in securing Chinatown for
information in regard to the murder
of Elsie Sigel, are the prime causes
for disquietude and renewed animos-
ity between the rival Tong.

Tom Lee, reputed leader of the On
Leong Tong, is said to be a prisoner
in his own home on Mot street,
where he has been in hiding since
an attempt was made on his life last
week, which was frustrated by his
white wife, who answered a call at
his door and confronted two Chin-
amen with drawn revolvers. She told
them Tom was not at home.

The extra details of police sent to
Chinatown today have been ordered
to alternate in watching the resi-
dents of the district day and night
and arrest any one who attempts to
make a disturbance.

MURDERER

**COVERED HIS FATAL SHOT WITH
NOISE OF THE "FOURTH."**

**BULLET FROM A RIFLE PEN-
ETRATED THE HEART OF A
WEALTHY ITALIAN IN
NEW YORK.**

Special to the Daily News.

New York, July 6.—What was at
first thought to have been a Fourth
of July casualty the police now say
was a successful plot to murder.

Joseph Pagano, a rich cigar man-
ufacturer, was shot through the heart
with a rifle ball as he was about to
climb into his bed early Monday. His
wife did not hear the report of a shot,
and it was not until his clothing was

removed that the bullet wound was
discovered.

The first police on the scene at-
tributed the death to a bullet fired
by persons celebrating the holiday,
as there was much shooting immedi-
ately after midnight. Later, how-
ever, Mrs. Pagano declared that the
life of her husband had been threat-
ened because of troubles among cer-
tain Italian secret societies. Then
the police investigated further and
found that Pagano had been shot
with a rifle, and not with a pistol.
Detectives before daylight found four
men on the roof of a building across
the street. They were hiding behind
a light shaft. They were arrested.
All were Italians. In a room occu-
pied by two of the men on the fourth
floor of the building was found a
rifle which had been discharged re-
cently.

The location of the wound in Pa-
gano's body and the course of the bul-
let indicated that the shot had been
fired from this building across the
alleyway.

Special to the Daily News.

Charleston, W. Va., July 6. —
While witnessing a ball game be-
tween Mucklow and Hager, at the
latter place, near here, Cal Newman
is said to have hit J. B. Adkins with
a stone, possibly fatally injuring him.
Newman then walked to his father's
store. A brother of the injured man
ran up, hitting Newman on the head
with a baseball bat. Newman may
die.

Charles Newman, a cousin, follow-
ed Adkins to a house near by and
fired three shots from a rifle through
a window before he was overpow-
ered, while Adkins escaped to the
words. Friends of Newman, heavily
armed, are searching the hills for
Adkins.

The Newman-Adkins feud is over
20 years old. More bloodshed is
feared on account of the bitterness
of the parties toward each other.

DENSE SMOKE AND
FLAMES.**

Special to the Daily News.

South Boston, Va., July 6.—The
fact that an unnoticed defective flue
had for some time given trouble to
the home of S. E. Hamlet today
caused a fire which not only destr-
oyed the home, but took the lives of
a visitor and five children, the old-
est child being 14 years of age and
the youngest 18 months old.

H. P. Strange, a Confederate vet-
eran and a friend of the family, who
arrived in the home of the Hamlets
yesterday, was among the victims. It
was at first thought that the fire was
due to the usual Fourth of July ca-
sualties, but later it was discovered
that the inattention to the hearth-
place caused the burning of the home
and the cremation of five of Hamlet's
children.

At 3 o'clock this morning the fam-
ily noticed smoke in the home, ac-
cording to those who escaped the
flames. The members of the house-
hold were asleep. The confusion was
such that those having possession of
themselves hardly had time to give
a thought to the other inmates. One
of the children, a boy, was thrown
bodily from a window. The child fell
two stories to the ground and both
arms were broken. He was internal-
ly injured and no doubt will die.

The local fire department could
render little, if any, help, as the
flames had already consumed the
better part of the dwelling. When
it was known that six inmates of the
home had not escaped, heroic efforts
were made to rescue the old man
and the children, but without avail.
Strange was 74 years of age and un-
able to take care of himself. He was
lost. He came to South Boston to
attend the celebration of the Fourth,
which had been largely advertised.

The smoke filled the home, and
Hamlet was awakened. With his
wife and two of the children he made
his way to the outer air and was saved.
Then it was that the flames
licked upward when the hysterical
wife screamed and begged for some-
one to save her children. Men made
dash after dash into the flames. The
smoke invariably drove them back
until in despair the crowd stood and
watched the building as it finally
crashed, carrying with it the charred
bodies of those who had been lost.
The work of excavating the bodies
followed.

The remains of several of the chil-
dren and the old man were found in
charred masses. All of the bodies
have not been recovered.

DAMAGES

**WHO DAUBED HER CHEEKS WITH
ROOF PAINT SOLD BY DRUG-
GIST'S BOY FOR ROUGE.**

Special to the Daily News.

Trenton, N. J., July 6.—Mrs. Anna
Talon, of this city, has announced
her intention of filing suit for \$5,000
damages against a druggist. She as-
serts that the act of a boy employed
by the druggist in selling roof paint
for a cheek rouge caused irreparable
damage to her feelings and great em-
barassment.

Early one evening she had to dress
hastily, and after applying the rouge
she had bought went in a cab to the
home of a friend, where a family
celebration was in progress.

As soon as she entered the house
there were many exclamations of
dismay and before she had time to
make inquiries as to the cause she
was hastily placed on a couch by
friends and a physician summoned.
It being believed that she had been
stricken by a strange malady which
had transformed her pale complexion
into a dusky brown.

An examination of the package later
revealed that it contained pure
Spanish brown which, in its liquid
form, is used sometimes as a roof
paint or to color bricks.

OLIVE OIL TALK.

The medicinal and beautifying qualities of pure Olive Oil are becoming better known every day. There is nothing like it for overcoming a generally run-down and weakened condition of the system, while a teaspoonful of it after each meal will build flesh, gradually overcome indigestion and is said to be a certain preventive of appendicitis, and liver troubles. It is very beneficial when rubbed over the whole body after bathing, and is excellent for massaging a dry scalp. We recommend the Extra Virgin Lucca Olive Oil as superior to all others. It has that rich, delicate, nutty flavor which it is impossible to secure in oils made in any other locality than Lucca, Italy. When in need of Olive Oil phone us and we will deliver it to you.

MOTHER

Of Dead Girl Makes Serious Allegation in Affidavit

WHICH HAS BEEN FILED IN JUSTICE DEMPTER'S COURT AGAINST A PHYSICIAN.

POST MORTEM REVEALS
EVIDENCE OF CRIME

BUT THE MAN WHO IS MADE DEFENDANT IS BELIEVED TO BE INNOCENT.

Acting on information which reached him Saturday night, Coroner Pfeiffer caused a post mortem examination to be held that night over the body of Miss Pearl Shaw, an 18-year-old girl who died Friday afternoon at the home of her parents, Mr. and Mrs. A. J. Shaw, who reside in a portion of the house which is occupied by Dr. U. S. Beam, the colored physician and his white wife, on East Spring street. After the death of the girl had occurred, the mother, Mrs. Shaw, declared that she had been the victim of a criminal operation and the coroner's post mortem examination revealed what is regarded by the coroner as positive evidence that there had been such an operation but there is a decided lack of evidence to indicate that the girl had been in a condition for which such a crime would have been committed.

The dead girl was employed at one of the cigar factories and, some time ago, she left the home of her parents and went to board with some girl friends with whom she was employed. About a week ago yesterday she called at the office of Dr. A. L. Jones, the popular physician and health officer, and asked to receive treatment. She represented, the physician stated, that she had no parents, but afterwards, when informed that her condition was serious, stated that her parents were living in the house with Dr. Beam, on East Spring street, but that she was not making her home with them. She was advised to return to the home of her parents, which she did and every effort was made to save her life, but she passed away last Friday afternoon about 3 o'clock.

It now develops in the case that Dr. Jones and Dr. Beam were both called in the case and that the former refused to consult with the negro doctor and after the girl's death the mother swore to an affidavit in Justice Dempter's court, charging Dr. Jones with the alleged crime of a criminal operation. Dr. Jones was out of the city at the time of the filing of the complaint and did not return until last night, and upon learning that the affidavit had been filed making a charge against him he immediately notified the proper authorities of his presence in the city and went before Coroner Pfeiffer and made a voluntary statement of his knowledge of the case. He also appeared before Justice Dempter and entered a plea of not guilty to the charge and demanded a hearing of the case which will be held in Justice Dempter's court next Saturday.

Dr. Jones, who is one of the most prominent and highly respected men of his profession in the city, when seen by a representative of the News Tuesday afternoon, stated that he had been guilty of a crime, and had had no connection with the Shaw case other than in a perfect legitimate professional manner and had done nothing but what would have been approved by the most exacting code of ethics known to his profession. He rightly asked the newspapers and the public to suspend judgment until the case is fully investigated and neither he nor any one of his legion of friends have any fears for his ability to establish his innocence.

JAUNDICE ATTRIBUTED, BUT DISEASE CAME SUDDENLY TO FAMILY.

William F. Evans, aged 43 years, with a wife and one daughter, died at his home, 111 South Union street, at 11:20 Tuesday morning. He had some home ill some few weeks ago and had never regained strength. No certificate of death was issued and the coroner is holding an inquest at the Chappellier undertaking parlor, conducted by Dr. Colling and assistants, where the coroner. No funeral arrangements have been made. Deceased leaves three brothers and three sisters in addition to the immediate family.

BODY SHIPPED

MRS. EMILY ANN WILLIAMS PASSES AWAY IN CHICAGO.

The death of Mrs. Emily Ann Williams, occurred in Chicago Sunday afternoon at two o'clock after a long illness of pneumonia. The deceased was the mother of Clyde Williams, a well known local mail carrier. The body arrived Tuesday and was taken to the home, 1226 East High street, where funeral services will probably occur Thursday.

FUNERAL

OF ROY STEWART WILL BE HELD FROM MOTHER'S HOME.

LOST HIS LIFE THROUGH CONTACT WITH A DEATH DEALING WIRE AT HUNTSVILLE.

Roy Stewart, aged 22 years, was almost instantly killed in the station of the Ohio Electric company at Huntsville, Logan county, Monday night. He had been in the employ of the company for about six months, and while on duty at Huntsville, Monday night, he took an iron poker in his hand to push a loose wire out of his way. The wire proved to be a "live" one, and a current of high voltage instantly coursed through his body, and he fell to the floor, unconscious, his death occurring within about five minutes. The remains of the unfortunate young man were brought to this city and were taken to the home of the deceased's mother, Mrs. Simeon Stewart, at 510 North Jackson street, where the funeral services will be held at two o'clock Wednesday afternoon.

TOMMY PHALEN

GETS NEW JOB AND JOINS ARMY OF SLEUTHS.

Thomas Phalen, Jr., who recently resigned from the position of deputy clerk in the probate court office, was Tuesday appointed probation officer of the juvenile court of Allen county by Juvenile Judge Hutchinson. The new appointment will bring Tommy within his calling, as he always proved to be somewhat of a sleuth. He entered upon his new duties Tuesday and, after having been sworn into office, donned the beautiful badge furnished him, the first of the kind in the county, then started upon his work immediately.

COUPON DAY WEDNESDAY COUPON DAY COUPON DAY AT THE BOSTON STORE

Not Like Other Stores! This Different Kind of a Store

We sell at Cut Prices in spite of the protests of manufacturers and retailers alike. They say it "kills their profits."

The public dictates our prices, which for its benefit alone are always lower than at any other store.

We sell Seasonable Goods at all times, at a small margin of profit above First Cost, and don't believe in holding out for High Prices until long after the goods are out of style.

Our offerings attract crowds; they only include goods in demand at the present moment, all fresh, crisp and clean merchandise.

We are not ashamed of our prices, at any season of the year; we never quote discounts of 10 or 20 or 30 per cent. on any article. We have continually on our bargain tables, more Real Bargains than all the stores in Lima put together, and all with the price marked plainly and boldly.

We Know our Prices are Right—the story of our phenomenal success is plainly seen in the crowds, that have been continuously flocking to this store.

None are so blind as those who will not see—but the Wide-Awake Shopping Public has proven a better judge of values than some of the Old Foggy High Profit Storekeepers.

Wise Shoppers know, that what others advertise we sell for less, and that it's the height of folly to think of spending money, without looking first at The Boston Store.

\$352,707.00 DEPOSITED
AT FIVE PER CENT.
SAFE, SECURE, CONVENIENT
FOR SAVINGS AND
DEPOSITS.

Nine years ago The Lima Home & Savings association began paying 5 per cent for deposits in any amount with privilege of compound interest. On account of the safe and secure manner in which such deposits have been handled, many people of large and small means, have accepted the very liberal opportunity of having their funds invested at a rate that is worth while, until nearly \$353,000.00 have accumulated earning 5 per cent. These deposits are used by this Association only for loans on city and farm homes in Lima and vicinity. Nothing but first mortgages are taken to secure these loans; ample insurance is required for the Association's protection, as well as frequent reduction of principal.

Another feature of safety is the annual examination by state authority to which this Association is subjected. The last examination was completed on the 20th of May, 1909, and included an investigation of all of the Association's investments and securities.

All persons with money to lay by at the liberal rate this Association has been paying for many years, who are seeking a place where safety, security, and convenience are in every transaction of its business, are invited to its office in the Masonic Building, west of the post-office, Lima, Ohio.

Marion at Mansfield.

Before 1241 persons, Lima and Lancaster broke even in a double header contest here Monday. The crowd, at least the part occupying the bleachers, was forced to sit through the entire first game in a drizzling rain, while it was exceedingly chilly during the second contest and the surroundings were just on the order of an autumn day.

The line-up was changed for the first game, and a new man, Morgan, occupied second sack. He did not show up in any great form at all, although he is said to have been a big leaguer. His playing was consistent, however, if his batting was not up to the average. For a time it looked as if the first contest, with Pennybaker and Deconnaire, the opposing pitchers, would mean a few extra innings, but Lancaster secured the lead in the sixth inning, making the score 3 and 2, and neither side was able to tally after that time. The contest was a pitchers' battle, pure and simple, in which Deconnaire possibly had a little the best of the argument and landed another game to his long list of victories, including more close contests than any other man in the entire league.

The second game had the appearance of a cyclone. It was a wild contest, in which not only the pitchers were wild, but the balance of the players seemed to be after rabbit, rather than the ball. There was a good excuse for it, however. The team did not arrive home until 11:30 after a long ride from Portsmouth and within an hour and a half was upon the diamond ready for "work-out." Then two games followed. This was enough to shatter any ball players' nerves.

Miller, who twirled for Lima, pitched a good game, except in one or two innings, when he was exceedingly wild and made a little misjudgment on one or two plays. McGuire, for the champs, was, however, about as bad and made one exceedingly costly balk. The Lancaster "champs" had seemed to be "sore" about something and the result was "pie for Lima." The final score was 7 to 2. McGuire taking his last 11th inning ascension in the eighth inning, at which time Lima sent four runs across the pan.

How Runs Were Made—First Game. Lima scored first in the very first inning. Fink was retired, Humphreys to Gowdy and Fohl went down to Gowdy unassisted. Things began to look bad, but Deconnaire was not just right then and allowed Reilly a pass. Of course he stole second. Sykes, next up, also walked. Trusty old Foutz brought Reilly home with a single. One run.

In the third inning Lancaster scored first. Williams doubled to center field, and Deconnaire whiffed. Reynolds singled to right and stole second, while Williams was enabled to come home. Reynolds was enabled to score on Miller's error. Humphreys, next up secured a fielder's choice, while Gowdy hit into a double play, Sykes to Newham to Sykes, retiring both men. Two runs.

The Champs scored again in the sixth inning. Humphreys singled to left field, Gowdy held first on Newham's fumble, and was advanced on Lallier's sacrifice. Compton fouled out to Sykes, and Humphreys scored. Corbin drew a pass. Carter singled near Pink, but Sykes was alert to the situation and threw the ball to Fohl, who tapped Gowdy out at the plate. One run.

Lima's only remaining tally was made in the eighth inning. Reilly drew a pass and stole second. Sykes singled to center field but was put out on first, Gowdy assisting and Deconnaire covering the bag, but

Reilly scored in a rush for the plate. Williams bounding excitedly and scoring the only error of the Champs. Fohl walked out to Corbin and Morgan popped to Gowdy. One run.

Lima again had the honor of scoring first, it coming in the second inning. Sykes camped on first by Reynolds' fumble, then stole second. Foutz flew out to Carter. Watkins whiffed. Newham singled, stole second and Weller singled to left field, scoring Sykes. Miller died on first by Reynolds' throw. One run.

In the first half of the seventh, Compton fouled out to Fohl, and Corbin singled past Weller, who was unable to reach the ball. Corbin stole second. Carter reached first on a fielder's choice and stole second. Williams was retired. Newham to Sykes, and Corbin scored on the misplay of Fohl. Sykes McGuire trapped on first sack when Fink fouled and Carter scored on Reynolds' single. Humphreys wound things up with a fly to Foutz. Two runs.

In the last half of the same inning, Weller fouled out to Lallier. Miller drew a pass. Fink did likewise, but was put out at second. Fohl was soon at first on a fielder's choice and Reilly singled near Reynolds, the pitcher, McGuire, making a bad ball and Miller scored. Sykes walked and Foutz skied out to Compton, ending the inning. One run.

In the eighth inning, Watkins was hit by a pitched ball. Newham sacrificed. Weller doubled to left. Scoring Watkins. Miller was camped at first when Lallier fell all about the ball. Miller pitched to left field, scoring both Weller and Miller. Not satisfied at second, Fink stole third and came home when Fohl singled to right garden. Reilly was able to tag first on a fielder's choice, but Fohl was put out at second. Gowdy to Humphreys. Sykes scored a fielder's choice in something the same manner and Reilly was retired, Gowdy to Humphreys. Four runs.

THE PEOPLE ALL

In Chorus Cried: Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means a destroyer or killer or "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit, Mich. One Dollar Bottles Guaranteed. The Enterprise Drug Store, M. M. Keltner, Prop., special agents.

There are several points of view from which a novel may be judged, but usually it matters little which of them we choose, provided we make clear beyond reasonable doubt which particular point of view is chosen. The Bookman says that it is for instance, equally fair to judge "Le Trois Mousquetaires" as a splendid romance, or to condemn it as bad history, or to discuss Henry James as marking a stage of development in the English novel; to measure "The Golden Bowl" of Henry James for its wonderful analysis of character and motive, or to quarrel with it on account of its involved style. So long as you do not confuse the point of view; so long as you do not call Dumas a second-rate romanticist because he blundered on a date, or claim that "Henry James" is Thackeray's greatest novel because it set a new standard for his typical fiction, or belittle Mr. James' knowledge of human nature because he chooses to juggle with the natural order of English words, then you are still within your rights as a critic.

This same justice should be done to music and painting. The present exhibition once said, "But you must not look for the same things in Whistler that you aimed in Sargent. You must try to change your point of view and see how the artist intended to treat the subject." So, if we listen to Debussy with ears full of Mozart we shall not get the modern poet-musician's message at all.

Equally the critic of nature—for the critically inclined will find fault with your best beloved landscape because it is not something else—must look at the mountains as mountains and the seaside marsh as marsh. Yet how often he exclaims, when you beg him to feel the tender sunset lights of the morning blue across the running marshy green, "But how flat it is—where are the rocks?" As well complain because a college lecture on the temperature of hot chocolate. When he has seen to see the rightness of both people and things rather than their wrongness and be grateful for the good instead of discontented with the faults, we are far on the way to a happy land.

The inventor of the first sewing machine that would sew was Elias Howe, Jr., of the little town of Spencer, Mass. His amazing capacity when the first thought of such an invention came to him was only \$1.50 a day. After the machine was made and finally brought to public attention, the royalties sometimes amounted to \$4,000 a day. Persistence and ability were measured by the financial returns—another refutation of the notion that the laborer in the regions of inventive genius usually goes without his hire.

Howe used to sit watching his wife sew, striving to work out an idea for the machine from the motion of her hand. There is a story that when he was almost ready to give up the attempt, he dreamed that he had fallen victim to a company of savages, who threatened dire infliction if he failed before a given time to make a machine that would sew. As the savages surrounded him he noticed that they carried spears pierced near the point. Instantly the solution of his difficulties came to mind. When he woke he went at once to his shop and the needle with the eye at the point was an accomplished fact.

His struggle for recognition and to secure capital to place his invention on the market was long and disheartening. His machine would make 300 stitches, as compared with about 35 to the minute. He went to England, hoping to rouse interest there. Finally however, the public took hold of the thing and the long work and waiting were rewarded. It was in 1845 that the patent was secured.

A most interesting account of the history and development of an influential western newspaper that appears in the current number of World's Work gives the following glimpse of the editor's policy.

With the correct economic insight, the paper is aimed at womanhood. The editor learned early in his career that the news that women will read interests men also, but that the rule reversed will not work. I have heard politicians make the ignorant boast that but for the women of the city the paper might be driven from the field.

It is a live paper from beginning to end. It is "livened" by an incident, the board of trade income offered and cut off some of the reports it has been furnishing. The paper got on very well without them, and made up its mind that it had been getting entirely too much space to market news generally. There was a general revision and condensation with marked saving in bulk. "The dry goods market is the best market in the paper" became a saying in the office.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

ROYAL THEATRE'S SPLENDID PROGRAM.

This popular playhouse presents a strong bill with another biograph subject. It is the story of an individual husband and a good, but extravagant wife. Upon receiving an invitation to a reception, the husband, a man of modest means, is compelled to pawn his watch in order to buy his wife a gown suitable to the occasion. They also borrow jewels from a friend and during their attendance these jewels are stolen. Desiring to avoid the embarrassment of an admission of the loss of the jewels they secure an exact duplicate, but only by borrowing money from friends and employer. Only by hard work are they both able to repay their friends and the supreme effort has had its results. Feeling they can no longer endure the struggle any longer, they send for the friends, to whom they had returned the jewels, and confess the loss; when they are astonished to learn the jewels which they had borrowed were only paste. The genuine jewels are returned to them, but too late for their hard toll had snuffed their strength away. Two more subjects are delineated, adding to the excellent bill.

That Was Reaped as Toll For the Glorious Fourth Of July

WAS NOT AS HEAVY AS THOSE OF MANY PREVIOUS CELEBRATIONS OF THE DAY.

BUT STILL SHOWS ROOM FOR FAST IMPROVEMENT

NUMBER OF DEAD REPORTED UP TO TUESDAY MORNING AGGREGATES THIRTY-THREE.

THE FOURTH'S TOLL.

The dead	33
Killed by fireworks	15
and resulting fires	15
Cannon	4
Firearms	4
Gunpowder	2
Toy pistols	2
Runaways	2
The injured	1,953
By fireworks	810
By cannon	140
By firearms	202
By gunpowder	320
By torpedoes	30
By toy pistols	208
By bomb canes	35
By runaways	48

More rigid laws and the growth of public sentiment for a sane celebration of the Fourth have had their results all over the country in reducing the number of killed and wounded on the annual holiday. The returns of the two days' celebration this year show a falling off in the number of killed of 31 from the record of 1905.

There were 33 fatalities reported up to Tuesday morning, as against 66 at the same time last year. Cleveland, Ohio, probably made the best record of any city of its size in the country in the fight against the noise and perils of the day.

While there were 10 persons killed and 62 injured during the one day celebration in 1905, the two-day festival in 1908 was passed without a single death or injury serious enough to require the attention of a physician.

This was due to the fact that firing and even the sale of fireworks or crackers was for bidden within the city limits.

Chicago and its suburbs gave strong evidence of the progress which has been made in stopping the slaughter in the path of the rejoicing over the nation's freedom. The staggering statistics of 12 dead and 114 injured a year ago were revolutionized. Not a single death had been reported this morning and the total number of injured was less than 30. Of the accidents which were placed on the police records only half a dozen were serious, and it was estimated the fatalities would not by any chance be more than two.

God! Did Nicely.

New York behaved well, reporting only four deaths—half the number for 1905—fewer injuries and less loss by fires, due to the indiscriminate use of fireworks.

New England enthusiasm got the better of its sanity in a number of cases, and as a result numbers of serious injuries are reported. Unofficial figures place the number of killed east of New York state line during the two days' celebration at 25, but this lacks confirmation.

St. Louis and Memphis joined the "sane" movement with vigor this year and thereby escaped the forty-eight-hour jollification without a death.

Rain in the Ohio Valley put an effectual damper on the spirits of many a young patriot and but few serious accidents were occasioned.

Agitation Brings Results.

The toy pistol, boon friend of the germ of tetanus, was robbed of most of its sting by the constant agitation and education of the young man.

Six deaths only are attributed to that cause during the 48 hours, though 608 persons sustained injury in using this "lock jaw promoter."

Fireworks and resultant fires caused the death of 15 persons, leading by a large margin in causes of fatalities.

The toy pistol stands second, with six lives to its ghastly credit. Toy cannons and firearms each caused four deaths, while two persons died as a result of gunpowder explosions and two were killed in runaways.

The total fire loss is estimated at about \$600,000.

DEATH LIST IS GROWING.

Since the above record was compiled, additional reports have been received, on following, under a Chicago date, issued as a bulletin by the Chicago Tribune at noon Tuesday, increasing the casualties:

"The number of killed and injured throughout the country as a result of the two days' celebration of the Fourth has reached 44 dead and 2361 seriously injured, among the latter being many who are in danger of death from lockjaw. The list, however, shows that the more rigid laws and public sentiment in favor

of sane celebrations have materially reduced the casualties."

The Times of the Gentiles

Text, "Jerusalem shall be trodden down of the Gentiles, until the times of the Gentiles be fulfilled" (Luke xxi, 24).

New Orleans, La., July 11th.—Pastor Russell, of Brooklyn Tabernacle, preached here to-day. He said:

As the city of Babylon represented the Empire of Babylon, so the city of Jerusalem represented the Jewish nation. The Scriptures refer to the fact that centuries before our Lord's day the Jewish Kingdom had been overthrown—had passed to the control of the Gentiles—and in our text our Lord declares that this subjugation would continue until certain times of the Gentiles, certain years or periods of their control, would pass away. When we read that certain times will be fulfilled, we are justified in thinking that these times have been foretold. And in looking for the statement of the original Oath-Bound Promise made to Abraham, we notice the facts of the case as follows:

God established the Jewish nation as his representative nation, or Kingdom, in the world, with the understanding that in some manner and at some time that nation would be the channel of divine blessings to all the families of the earth in harmony with the original Oath-Bound Promise made to Abraham. After a precarious existence of nearly six hundred years, the star of Jewish Empire set, and it has not re-arisen since. The particular date at which the Typical Kingdom passed away is clearly marked in the Scriptures. The solidarity of the Empire in the hands of King David, and his son, King Solomon, was lost in its division in the days of Solomon's successor. Nevertheless, in harmony with the Divine prediction, the royal line continued in the tribe of Judah, as it is written, "The sceptre shall not depart from Judah, nor a law-giver from between his feet, until Shiloh come" (Genesis xlix, 10).

Of the last king of Judah, Zedekiah, the Divine declaration was, "And thou, profane and wicked prince of Israel, whose day is come when iniquity shall have an end, thus saith the Lord God, Remove the diadem, and take off the crown: this shall not be the same. * * * I will overturn, overturn, overturn it: and it shall be no more, until he come whose right it is: and I will give it him" (Ezekiel xxi, 25-27). That statement was made just prior to Israel's captivity to Babylon, B. C. 606. And the crown and sceptre have been returned since then, and will continue so to be until Messiah himself, at his second advent, shall take the throne as the Antitype of King David.

The interim of time, between the overthrow of the crown in the days of Zedekiah and the establishment again of the crown in Messiah's Kingdom at his second advent is Scripturally termed the "Times of the Gentiles," that is to say, the years of the Gentiles, the years in which the Gentiles would bear rule over Israel and all the earth; the period in which God would have no representative nation in the world. Some may inquire, Were not the Israelites restored from the Babylonian captivity? Yes, we answer, but they did not receive back the Kingdom; they were thereafter subject to the great dominant Kingdoms of the world. First, they were subject to the Median Empire, whose Emperor, Cyrus, restored them to their own land as a subject-nation. Subsequently they were subject to the Grecian nation. And in the time of our Lord they were still a subject-nation to Rome. Pilate represented the Roman government, and so did Herod, the King of Galilee. Any day, the Hebrews were not Israelites, but Edomites.

While it is true that an outward form of Jewish Kingdom was maintained subject to the Roman Empire for a time, the last vestige of this authority passed away with the destruction of Jerusalem by the Roman army in A. D. 70, and the Jews have never been able to re-establish themselves in their own land up to the present time. Now, in harmony with the Scriptures which foretold Israel's restoration to Palestine, and their re-establishment as the earthly representatives of God's Kingdom, the Zionist movement is coming forth with good hopes of soon effecting a Jewish sub-Kingdom. We may be sure, however, that the declaration of our text will come true to the very letter—"Jerusalem shall be trodden down of the Gentiles, until the times of the Gentiles be fulfilled"—or, *fulfilled*.

Let us look backward and note what the Scriptures declare respecting earthly empires and the period of their dominion. If possible, let us ascertain when the Gentile times began, and when they will end, giving place to the Kingdom of Messiah, the spiritual Kingdom, the Church glorified, whose work will be the ruling of the earth, the blessing of all nations, and the lifting of the human family out of sin and death conditions to all that was lost through Adam's disobedience, to all that was redeemed through the obedience of Christ Jesus.

The Scriptures very particularly draw to our attention King Nebuchadnezzar of Babylon. Very carefully does the Prophet explain that Nebuchadnezzar had a vision of deep inter-

est to him, but the particulars of which he could not recall. He demanded of the wise men of the Empire a statement of the dream, as well as an explanation, arguing that if they had any supernatural power by which they could explain a dream, the same power could release it. Then it was that Daniel, the Prophet, was brought to the notice of the King, and by Divine power not only rehearsed the dream but explained it—a dream of much more interest to all Christians than it possibly could have been to Nebuchadnezzar himself.

Many of this audience doubtless recall the dream and its interpretation, yet we will briefly rehearse it. In his dream Nebuchadnezzar saw a great image of wonderful height and grandeur; its head was of gold, its breast and arms of silver, its belly and thighs of brass, its legs of iron, and its feet of iron mixed with clay. While it stood erect, a stone was taken from the mountain and hurled at the image, striking it on the feet. Earthquakes, the iron, the clay, the brass, the silver, and the gold were crushed to powder and became as the chaff of a summer's threshing floor, and the wind carried them away. By Divine Illumination, Daniel, the Prophet, explained the vision thus: The head represented Nebuchadnezzar's own universal Empire, Babylon. The breast and arms of silver represented the kingdom which would succeed his as a universal empire, namely, the kingdom of the Medes and Persians. Upon the fall of Medo-Persia, the Grecian Empire would become universal, to be succeeded in turn by the Roman Empire, whose great strength was symbolized by the iron. This is the Empire which ruled the world in the days of our Lord. Thus we read that our Lord was born at Bethlehem, whither Joseph and Mary had gone at the command of Caesar Augustus, the Roman Emperor, who sent forth a decree that all the world should be taxed. The civil Roman Empire lasted for several centuries after Christ, and was followed by the ecclesiastical Roman Empire, of which the popes at Rome were the representative heads. This Empire, partly civil and partly ecclesiastical, was represented by the mixture of the iron, representing civil power, and the clay, representing papal religious power; and this phase of Daniel's image still exists in the kingdoms of Europe as represented in the ten toes of the image which stand for the divisions of the territory of the old Roman Empire in Europe.

Daniel's View of the Matter. When God, subsequently, gave his servant, the Prophet Daniel, a vision of these same Gentile governments, that would bear universal sway over the earth from the time of the removal of the diadem from Zedekiah until the establishment of Messiah's Millennium Kingdom, the picture was a different one. Instead of a glorious image of towering height and splendor, Daniel saw four great, terrible wild beasts. The first, like a lion, corresponded to the head of gold of the image—representing Babylon. The second, like a bear, corresponded to the breast and arms of silver in the image, and represented Medo-Persia. The third, like a leopard, corresponded to the brass of the image, and represented Greece. The fourth, beast, great and terrible, found nothing in the animal kingdom to represent it. It corresponded to the legs of iron, which represented the Roman Empire; while the ten toes of the latter beast corresponded to the ten toes of the image, representing papal Rome and the present subdivisions of imperial Europe. The difference between these two visions represents how differently present institutions, the kingdoms of this world, are viewed from the human standpoint and from the divine standpoint. From the worldly standpoint and estimation, the kingdoms of the past have been majestic, grand; from the standpoint of God, and those who have his Spirit, they have been beastly.

The second to both of these visions showed the overthrow of the earthly governments by the heavenly government. As it is written, "In the days of these kings shall the God of heaven set up a Kingdom, and it shall break in pieces and consume all of these kingdoms, and it shall stand forever." The Kingdom of God was pictured in the stone which smote the image on its feet. That stone prefigured Christ and the Church, and shows that it will be the power of God through the Church that will ultimately work the wreck of all earthly governments. Do not misunderstand me; nothing in the Word of God teaches anarchy, or authorizes God's people to fight with carnal weapons; rather they are exhorted to seek first the Kingdom of God and its righteousness, and to leave all else to the Lord, assured of his willingness to make all things work together for their good.

As Christ in the flesh lifted neither hand nor tongue to smite the earthly Empire, nor opposed Caesar and his representative, Pilate, so his followers are to make no opposition to the powers that be, but are strictly enjoined to "be subject to them," and to recognize

MAMMOTH CROWD VISITS HOVER PARK AND ATTRACTIONS.

One of the largest crowds that has ever been known to pass through the gates of Hover Park, attended the pleasure resort Monday evening, the occasion of the celebration of the Fourth of July. Every inch of "elbow room" was in use. The exhibition given by "Rollo, the Limit," a "lax down an inclined plane" and turning a somersault in the air, wearing roller skates, the place being beautifully illuminated, is one of the greatest free attractions ever offered at the park. The display of fireworks Monday evening was one of the grandest ever seen in the city from the original salutes to the final "Good Night." The fireworks and illumination was made on the island in the center of Hover Lake.

LIMA WHITE SOX AT BLUFFTON
The Sox helped Bluffton to celebrate the Fourth yesterday, and gave one of the prettiest exhibitions of ball seen in many a day; both sides playing a fast and snappy game at all times. Ashton's pitching was phenomenal. Although the greatest portion of the game was played during a drizzle, he allowed but two hits and gave no bases on balls. The Sox got their tally in the third on a pass, a sacrifice and a fielder's choice.
The Sox got to Carey the 18th and Belle Center the 34th. Any club desirous of a good fast team for opponents, will make no mistake in securing the Sox.

IN MEMORIAM.

In the death of D. S. Cross, our city sustains such a loss as will be felt to every department of life with which he came into contact.
A man of the highest integrity, coupled with a cheerful and uncomplicated spirit, he was universally loved and respected.
He was recognized as a man of sincerity, absolutely devoid of hypocrisy or selfishness. His Christianity was a vital thing in his character, so much so that every man of whatever denomination or creed, felt it a privilege to come under the influence of his charitable mind. In the words of the Apostle Paul, he was "A living epistle known and read of all men."
As year after year disease racked his body and deprived him of the use of it, no word or look of complaint was ever heard from his lips. He had no time or inclination to tell the world his own troubles. Men in our city who are given at times to complaining of their lot, have confessed with shame that they ever murmured when they have considered the patient suffering of David S. Cross. He was an optimist of the highest type. No cloud was so dark but he found somewhere in it a silver lining. No man was so bad that there could not be found some good in him. The world was a great place, and his departure means great loss. He has been an inspiration and a strength to many a man. In the business and in the social intercourse of the life of our city his kindly smile, his cheerful word and his unselfish hand will linger long as a benediction in the minds of all who knew him.

PRODUCTION FOR THE MONTH OF JUNE

WAS BUT SLIGHTLY GREATER
THAN THAT OF PRECEDING
MONTH.

The general activity in the high grade crude oil fields, and the general lethargy in the lower grade fields where the market is not a sufficient inducement, characterized the operations throughout the oil-producing states during the month just closed. There was an increase in new wells in all districts save alone in Oklahoma, where the shut-down has gained a permanent hold on the operators. The summary of the various fields shows a new production of but slightly more than that for May, and thoroughly demonstrates that in the old fields of Pennsylvania, Ohio and Indiana, little can be expected in the way of any great amount of crude oil in the years to come. A pool here and one there, and light pumps in known territory, make up the bulk of operations in these older fields. The greatest activity of the high grade premium fields was that on and being continued in the southeastern Ohio district, especially in Fairfield and adjoining counties and in the new field opened near Steubenville, in Jefferson county. The completions in this field numbered 234 with a new production secured of 3,611 barrels. There was no special activity in the Kentucky-Tennessee oil fields, and the recent three-time decline in the price of the oils of that field is being felt.

In Illinois operations picked up and there were 342 wells drilled for a new production of 5,050 barrels. In Louisiana over the preceding month of more than 1,000 barrels. Considerable work is scattered over the Texas and northern Louisiana districts and in the latter some big producers are being found, which may later figure seriously in the markets.

The settled production of all crude oil fields reflecting the markets of the country, follows for the month just closed:

THE ROUNDUP.

J. E. Riddle, who has been in Chicago since last January has returned to Wapakoneta, where he will permanently reside. He is much improved in health.
Ralph Pelligrini, accompanied by his nephew, Del Pelligrini, leaves on Monday for New York, where they will sail on the 14th for three months on the Continent. Mr. Pelligrini has been in this country 25 years, and was back to the old home at Bagin, Italy, ten years ago. He goes at this time particularly for a visit with his mother, who will be ninety years of age her next birthday. Mr. Pelligrini and his relative will also tour England, Germany and Switzerland, and returning, spend some time in France. "I've been hard at it the past ten years," said Mr. Pelligrini to the News, "and I want particularly a rest. A man needs this ever so often and my time has come. Then I am very anxious to see mother. I have two brothers over there and we may be gone in all some three months."

Charles Stewart, of the Hoover & Bond stores, left last night for a week in Chicago and will visit the Grand Rapids markets before his return. "Business has been fine this spring," said Mr. Stewart before leaving, "and we are able to give our patrons just what we advertise when they come after it." Mr. Bond is also out of the city for a few days.

Walter Ridenour, manager of the Central Drug store, returned this morning from an over-Fourth stay at Cedar Point.

Mr. Harry Richardson, of Spencer, and Miss Florence Munster, ger, chaperoned by Mrs. Weaver, spent the Fourth at Detroit, Mich.

Mrs. Fred Nichols, of Findlay, is the house guest of Mrs. L. Mussering of the St. Johns road.

Among the Lima boys who are employed in other cities and who were here to spend the Fourth and fifth were the following: Earl Bressler, from Detroit; W. J. Edwards and Led Richardson from the automobile works at New Castle, Ind.; "Duch" Coolahan, from Kenton, and "Jimmy" Daley, from Indianapolis.

SMALLEST WHEAT LARGEST IN CORN

WILL BE CROPS IN OHIO, ACCORDING TO THE LATEST BULLETIN.

By United Press.
Columbus, July 6.—The smallest wheat crop and the largest corn crop with one of the greatest oats yields in years, are indicated for the fields of Ohio by the monthly crop bulletin of the State Board of Agriculture, issued today.
The wheat yield at harvest time is now estimated at 77 per cent of the average. The Ohio acreage is over half a million acres below 1908, causing the small total yield.
Oats prospects are for 96 per cent of the average with a heavy acreage, and should the season be favorable from this on, the indications are for the largest corn yield in the history of the state, for the acreage is 68,000 acres ahead of 1908, or a total of 2,805,885 acres.
During June the condition of wheat advanced four points and oats five points.

DINNER STORIES.

Andrew Carnegie tells this story: "I cannot leave ye thus, Nancy, a good old Scotchman wailed. 'Ye too and I were, but ye couldn't live in the same house. Gint die ye man, another man who'll keep ye in comfort in yer auld age.'"
"Nay, nay, nay," answered the good spouse; "I couldn't wed another man, for what I do wi' twa husbands in heaven?"
"And pondered over this, but suddenly his face brightened. 'Ye ken auld John Clemonments? He's a kind man, but he is na' a member of the kirk. He likes ye, Nancy, an' gint ye'll marry him' (will be all the same in heaven. John's na' Christian and he's na' likely to get there."

According to Everybody's, for many years Dr. Francis L. Patton, president of Princeton University, wore side whiskers. Whenever he suggested that there was a lack of opinion in the family, one morning he came into his wife's dressing room, razor in hand, with his right cheek shaved smooth.

"How do you like it, my dear?" he asked. "If you think it looks well, I will shave the other side, too."

At a lunch given in his honor, Sean Heala read an amusing letter written to him by Alfred Nobel, at a time when Heala was still a student, but already filled with a longing to explore unknown Asia. He applied to the government for funds, but the answer was so slow in coming that he wrote to Nobel, who promptly replied: "I take no interest in these geographical exploration trips. In fact, I regard them as an anachronism. Men communicate with each other today from one end of the earth to the other by means of telegraph and post. There are in Asia, too, explorers and savants who are surely better qualified than you, sir, to study and describe their country. I, therefore, believe that you could make better use of your ambitious impulses than by undertaking trips to Asia. But in order that you may see that I do not always act as I think, I send you a sum which may serve as the best confirmation of my own convictions."

THIRD

Week of Case of State
Against Christian
Geiger.

OPENS IN THE COMMON PLEAS
COURT ROOM ON TUESDAY
MORNING.

DEFENDANT IS FINALLY
EXCUSED FROM STAND.

IRMA BRENNER OFFERS SOME
BATHER SENSATIONAL
TESTIMONY.

The third week of the trial of the case of the State of Ohio against Christian W. Geiger, charged with complicity in the Yoakum robbery, began with Tuesday morning. The trial again continued on its course and has been one of the most remarkable cases ever passing through the Allen county courts.

The defendant had a long wait upon the stand, occupying it for over two days. He remained firm through the examination, however, and gave up nothing that would implicate him in any manner with the Yoakum robbery. He did, however, answer questions regarding past and other events that the defense will probably play upon in order to gain their desired point.

The "ragged edges" of the case are now being reached and it is quite probable that it will be completed during the present week, going to the jury Thursday or Friday. Judge Mathers has occupied the bench for two whole weeks, the longest a visiting judge has been in the city in such a position for a number of years.

Tuesday Morning.
At 9:45 Tuesday morning, after three days of recess, court reconvened in the case of the State of Ohio against Christian W. Geiger.

The defense was again placed on the stand for additional re-direct examination. The defense endeavored to show that Martin Henderson and Morgan did not hold a conversation at the stone quarry, but the state's objection to the question was sustained.

The state on further cross-examination inquired about guns and connection between the time of the arrest and the leaving of the guns.

Witness did not recognize Dillon's picture in the papers of the city, but did recognize Dillon on the witness stand.

"Isn't it a fact Mr. Geiger you went to the plant of the Hercules Torpedo company several times in the past five or six years in the early dawn of morning to secure nitro-glycerine?"

"No sir."

"Isn't it a fact Mr. Geiger that during the past eight or nine years you furnished these yegmen with nitro-glycerine?"

"No sir."

"Were you out the Spencerville road near the nitro-glycerine plant at any time?"

"Yes sir. I had work out there. I often drove out there with my family as any other person would."

Defendant said he was present when the money belonging to Harry Slater was divided between Red Nichols, Patty Holleran and Duffy, including the watch, cuff buttons and \$25 belonging to the deceased.

"How much did Red Nichols receive?"

"I don't know."

"What did they give you?"

"Nothing."

"Do you mean to say you didn't get anything for keeping Harry Slater there?"

"Yes sir."

"What was done with the diamond that was found under Slater's pillow?"

"I didn't see any diamond."

On re-direct examination of the defense, the witness was questioned regarding his being a friend of Patty Holleran or an enemy since the defendant offered testimony in the case brought by Dr. Ernst against Duffy, Red Nichols and Holleran, to recover physician's fees. The witness then said he would now consider Holleran as an enemy.

The defendant was excused from the stand at 10:35 after over two days in the witness chair.

County Clerk T. J. Edwards was next placed on the stand by the defense. The letters and receipts were offered by the defense as exhibits. The witness stated he first saw the letter as one of the features of the report of the grand jury in the January term of court.

The county clerk was questioned regarding the keeping of criminal records and testified that they were kept in the criminal record from which he read an entry concerning the pleas of the prisoners—Henderson and Dillon were simply continued on the criminal docket and that the charges against the three in the original indictment were still pending.

The state strongly objected to the

HAPPY REUNION

BROTHER AND SISTER MEET FOR
FIRST TIME IN 34 YEARS.

A happy reunion occurred at Cincinnati on the Fourth, when Mrs. John Clements, of this city, and her brother, Charles Hambrick, of Frankfort, Kentucky, met for the first time in thirty-four years. Thirty-six years ago Mrs. Clements came to Lima, and two years later her brother visited her. Since then they had not met. Sunday, John Clements and wife, W. T. Clements and wife, Jesse and Ella Clements were the members of the Lima party who enjoyed the happy occasion.

WEST MARKET STREET RESIDENTS.

A meeting of the property holders of West Market street will be held at the council chamber, in the city building, on Tuesday, July 5, at 7:30 p. m. At this meeting the votes as to the class of material will be opened. The question of paving the street this year or of building over until next spring will also be determined. Any one who has not yet voted will have the opportunity to do so tonight.

Paving Suits are Filed
Against Board of
Service.

ELIZABETH STREET CONTRACT
THE CONTENTION IN LAY-
EST ACTION.

INJUNCTIONS ARE ASKED IN
TWO SUITS FILED TUESDAY

M'HEUGH SEEKS TO BE FINALLY
AWARDED CONTRACT AL-
READY GIVEN.

Two more paving suits were filed Tuesday morning in common pleas court similar in character to the others on the recent paving contracts. The suits are in connection with the Elizabeth street paving. City Solicitor Rogers filed one, while Cable and Parmenter filed the other.

The first suit is entitled: "The State of Ohio, ex rel William E. McHugh, against the Board of Public Service of the City of Lima, Ohio; Wilbur Flisk, William Wilson and W. T. Harps, members of said board; J. O. Shoup & Co., a partnership, and J. O. Shoup and E. C. Baird."

The plaintiff alleges in the petition that on October 21, 1907, the majority of the property owners between North and Murphy streets on Elizabeth street, filed a petition with the city council asking the improvement of the said street by paving with vitrified brick. On March 15, 1909, the plaintiff says the council passed a resolution declaring it necessary to improve the street as prayed for by the property owners. All were served with notices to that effect. On March 3, 1909, so the petition continues, the council passed an ordinance deciding to proceed with the improvement of the street, and ordering the Board of Public Service to contract for the work with the lowest and best bidder.

The petition says bids were received until noon on June 2, 1909, and that among the number was one from J. O. Shoup and company, also

William E. McHugh.

The bid of Shoup and Company, so it is stated in the petition, was \$20,000, while the bid of McHugh, the relator, for the same work, was \$28,750.

The relator says that no objection could be made to his bid.

The relator says that the contract was fraudulently awarded to J. D. Shoup and company, and that there was no difference in the form of the bids, the price of the relator being lower for identically the same materials. The relator says he executed a bond of \$15,000 on the Bankers Surety Company and that the bond was approved by the City Solicitor, but that the Board of Public Service refused to accept either bond or contract.

The relator declares further that J. O. Shoup and company well knowing the illegal and unwarranted acts have gone no further than the filing of the contract and bond with the Board of Public Service. The prayer of the state and relator is that the award of the contract may be set aside and adjudged invalid, restraining the defendants from proceeding further in the matter.

A writ of mandamus is also asked, compelling the Board of Public Service to accept the bid of the relator. Cable and Parmenter filed the suit.

The second suit was filed by the City of Lima, Ohio, a municipal corporation, against the Board of Public Service, Wilbur Flisk, William Wilson and W. T. Harps, members of said board; J. O. Shoup & Co., a partnership, and J. O. Shoup and E. C. Baird.

The city solicitor declares further in the petition that if the board is allowed to carry out the contract for any part of it, the action would be a misapplication of the funds of the city of Lima, Ohio. A prayer is made that the defendants be temporarily enjoined from carrying into execution any part of the contract made with the Board or company.

Witness said she talked to Charley Baxter about divorce papers, but not about the shot-guns.

"Did she come back to Bessie Miller's after Dillon was arrested?"

"Yes sir."

"Did she come alone or did some one bring her?"

"Mr. Ernst brought her."

"While this Jeffries' woman was there did you ever see her write?"

"Yes sir."

"Do you know her handwriting?"

"Yes sir."

The witness was handed the exhibit of the defendant, the Black Hand letter, and an attempt made to identify it as that of Mrs. Jeffries. The witness could not identify it.

"Did Andy Ernst talk to you about that handwriting?"

"No sir."

Perry Thomas, single, and a painter by trade, died at three o'clock Tuesday morning after a very short illness, seemingly. Yet after the post-mortem examination was made, it was found that the deceased had been suffering with painter's tuberculosis for the past several years, judging by the condition of his lungs.

The deceased was born July 2, 1881, in Bluffton, and was 27 years and 3 days of age at death. The deceased was the son of Thomas Thomas, and lived with his parents at 231 south Jackson street. One week ago Tuesday, the deceased was taken to the county infirmary, where he has since been and where he passed away. The victim was exceedingly violent at times, and it was found necessary to take him to some institution where he could be properly kept. Death occurred there Tuesday morning.

The body was removed to the Whitley morgue, where Doctors Poling and Hoyer conducted an examination. From the exterior signs of the body, it was thought the deceased had been poisoned, but developments as the post-mortem examination was made, gave proof that the deceased was a victim of tuberculosis. The left lung was in horrible shape.

The funeral services have not yet been arranged.

he was 17 years of age. Never saw Henderson, Martin or Dillon at home of his parents. Never sold silverware in county dressed in woman's clothing and denied all other instances of alleged visits.
